

DURGASI VIJAY

AI Engineering Intern | LLM & AI Workflows

✉ vijayanu292157@gmail.com ☎ 9182919974 📍 in vijaydurgasi2005 🔗 vijaydurgasi2005

Profile

AI/ML undergraduate with hands-on experience in **Python, machine learning fundamentals, and AI-powered applications**. Built systems involving **audio processing, NLP-based summarization, and intelligent workflows**, with a strong interest in **LLM-based systems, autonomous agents, and RAG pipelines**. Passionate about experimentation, rapid learning, and building real-world AI solutions.

Education

Btech in computer science and engineering, <i>Narasimha Reddy Engineering College-JNTU(H)</i> percentage: 68%	2022 – 2026 Hyderabad
Intermediate, <i>Alphorse Junior College</i> Percentage:88.2	2020 – 2022 Karimnagar
Secondary School, <i>Ratnam Global High school</i> CGPA:10	2019 – 2020 Karimnagar

Skills

Technical Skills

- **Programming:** Python, JavaScript, React
- **AI / ML:** Machine Learning fundamentals, NLP, audio processing
- **LLM & AI Tools:** Prompt Engineering, AI summarization workflows
- **Web & APIs:** HTML, CSS, JavaScript, Django
- **Tools:** GitHub, VS Code
- **Concepts:** Model evaluation, experimentation, intelligent automation
- **Prompting**

Personality Traits

- Adaptability
- Problem solving
- Time management
- Fast Learning

Projects

Food Delivery App, Swiggy clone built with React • Built a production-style Swiggy clone using React with a component-based architecture. • Integrated live restaurant and menu data using REST APIs. • Implemented state management using Redux Toolkit for cart and user interactions. • Optimized performance using lazy loading, reusable components, and hooks also used tailwind for styling's.	01/2026 – 01/2026
--	-------------------

Civic Sense, <i>Civic Sense AI-Enabled Civic Issue Reporting Platform Web + AI Integration</i> - Built a system where users upload images, tag issues, and share location data to nearby municipal offices. - Demonstrates AI + automation for real-world impact.	08/2025 – 08/2025
Saras, Saras AI Text Analysis & Summarization Model Python NLP Neural Network Concepts - Developed an AI model capable of analyzing input text and generating concise summaries. - Applied prompt engineering techniques to improve output quality. - Focused on transforming raw information into usable insights.	08/2025 – 08/2025
Voice-vault, <i>Voice-Vault AI-Powered Audio Intelligence System Python Audio Processing NLP</i> - Built a system to record audio and generate live transcriptions. - Integrated AI models to generate automatic summaries from speech. - Worked on audio preprocessing and text analysis pipelines. - Demonstrates understanding of end-to-end AI workflows.	05/2025 – 05/2025

Certificates

Certified as Professional Prompt Engineer in AI Certified as Professional Prompt Engineer in AI	Java programming for beginners Obtained a java completion certificate from SimpliLearn	Introduction to Html and CSS Obtained a Html and CSS certificate from the simpliLearn.
Data visualisation: Empowering Business with effective insights Obtained a certificate from TATA on data visualisation.	AI Mastermind Obtained a certificate a from Outskill on AI mastermind.
